

# How to Get Unity Setup For This Class

**ATTENTION:** This setup tutorial is for Macs and Windows Computers. If you have a Chromebook or a Linux system, I recommend looking up a YouTube tutorial on how to do so (There are a lot online!)

## 1. Create a Unity ID

### Create a Unity ID

If you already have a Unity ID, please [sign in here](#).

Email	Password
<input type="text"/>	<input type="password"/>
Username	Full Name
<input type="text"/>	<input type="text"/>

☐ I have read and agree to the [Unity Terms of Service](#)(required).

☐ I acknowledge the [Unity Privacy Policy](#) [Republic of Korea Residents agree to the [Unity Collection and Use of Personal Information](#)] (required).

☐ I agree to have [Marketing Activities](#) directed to me by and receive marketing and promotional information from Unity, including via email and social media(optional).

Create a Unity ID

Already have a Unity ID?

OR

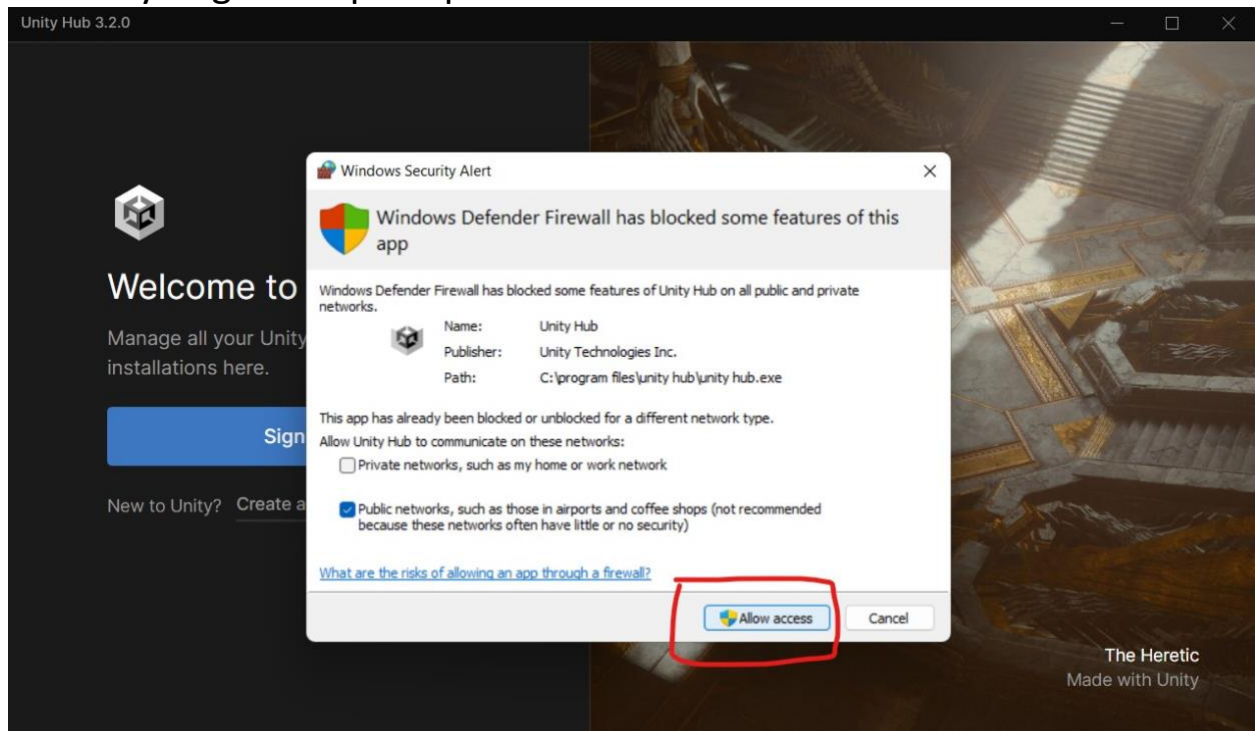

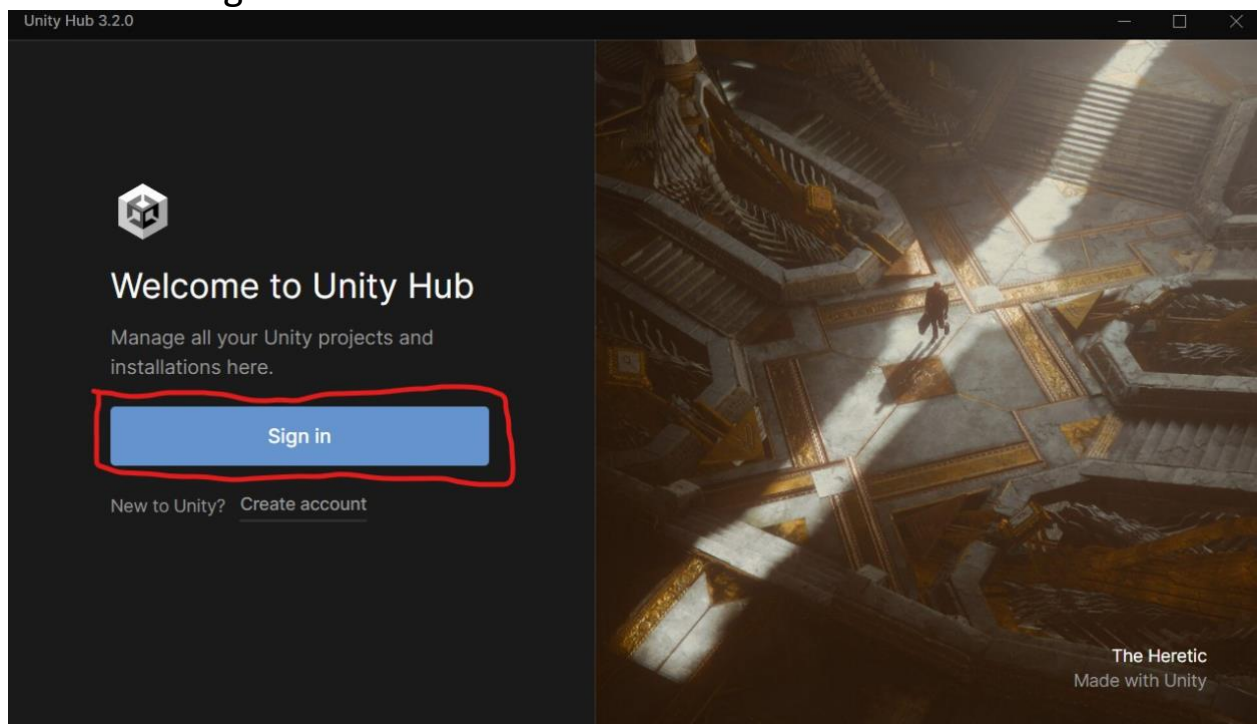

- Click  [here](#) or  [here](#) to download the Unity Hub Installer
- Install Unity Hub

4. If you get this prompt:

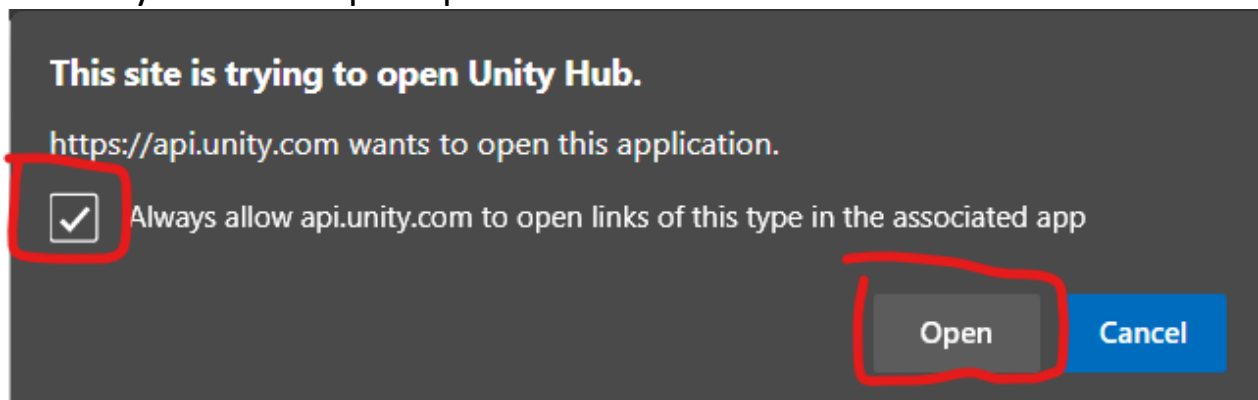

5. Click Sign In

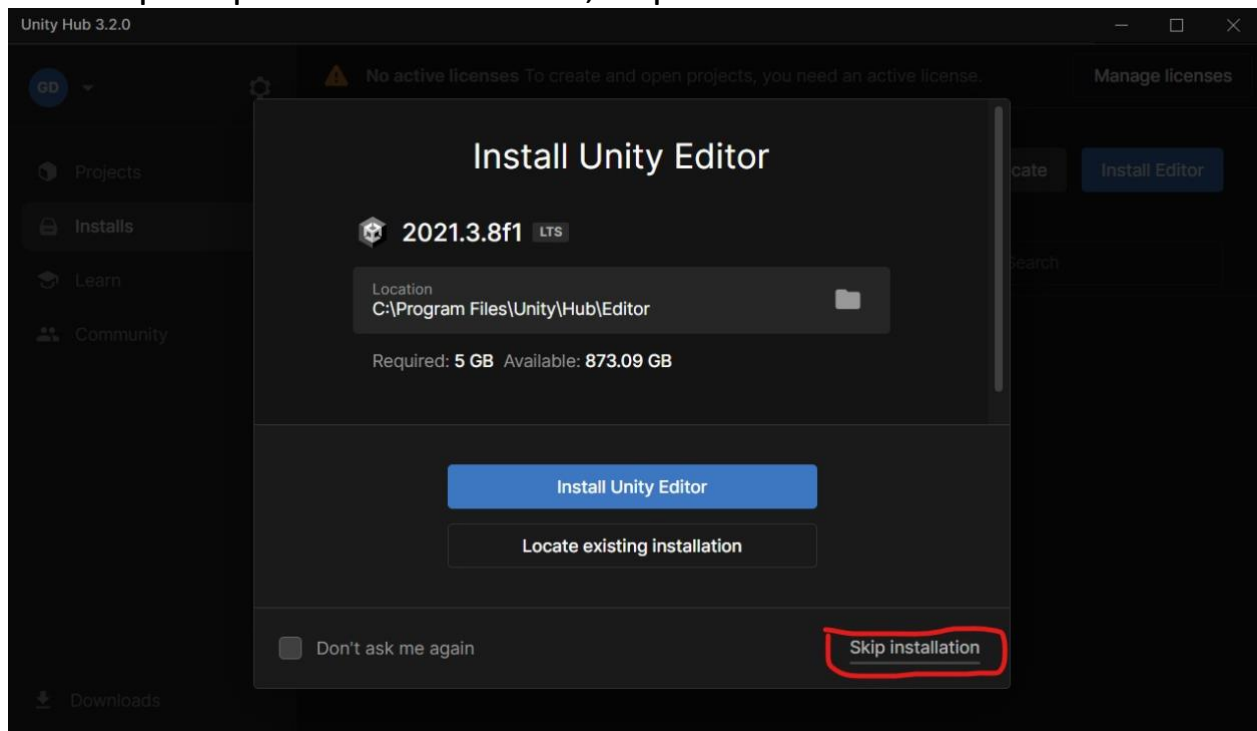

6. Sign in to the Unity ID you created

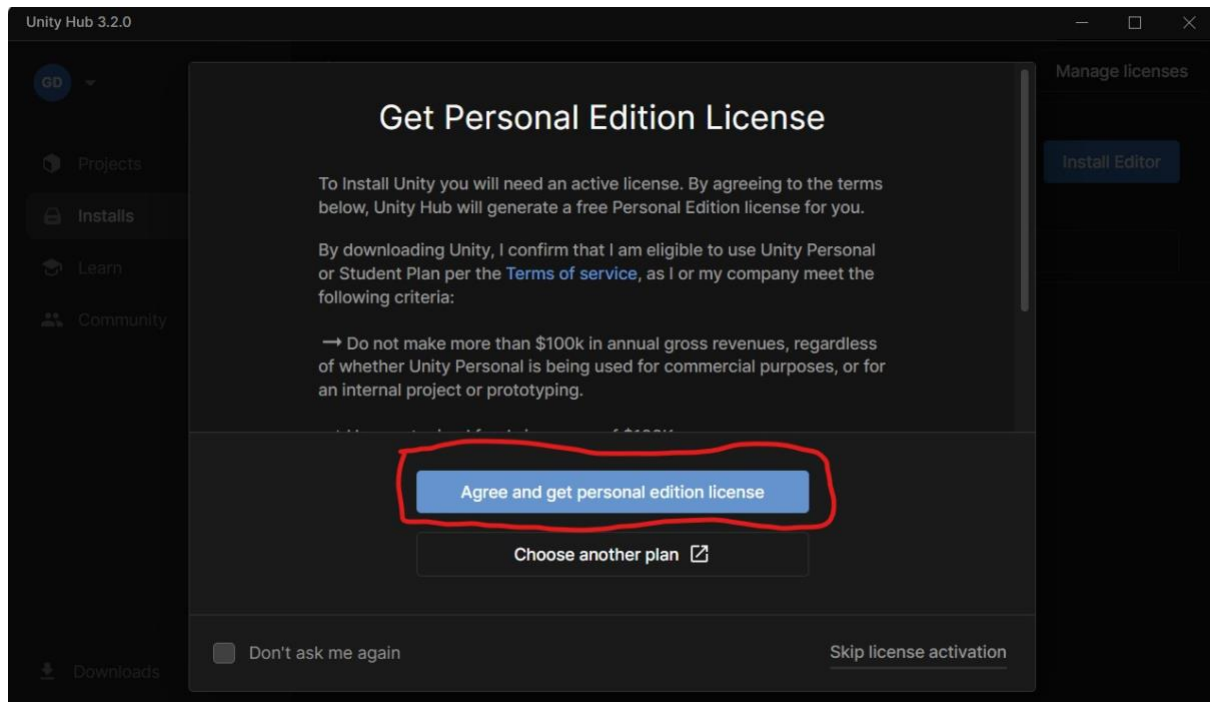

7. If you see this prompt:

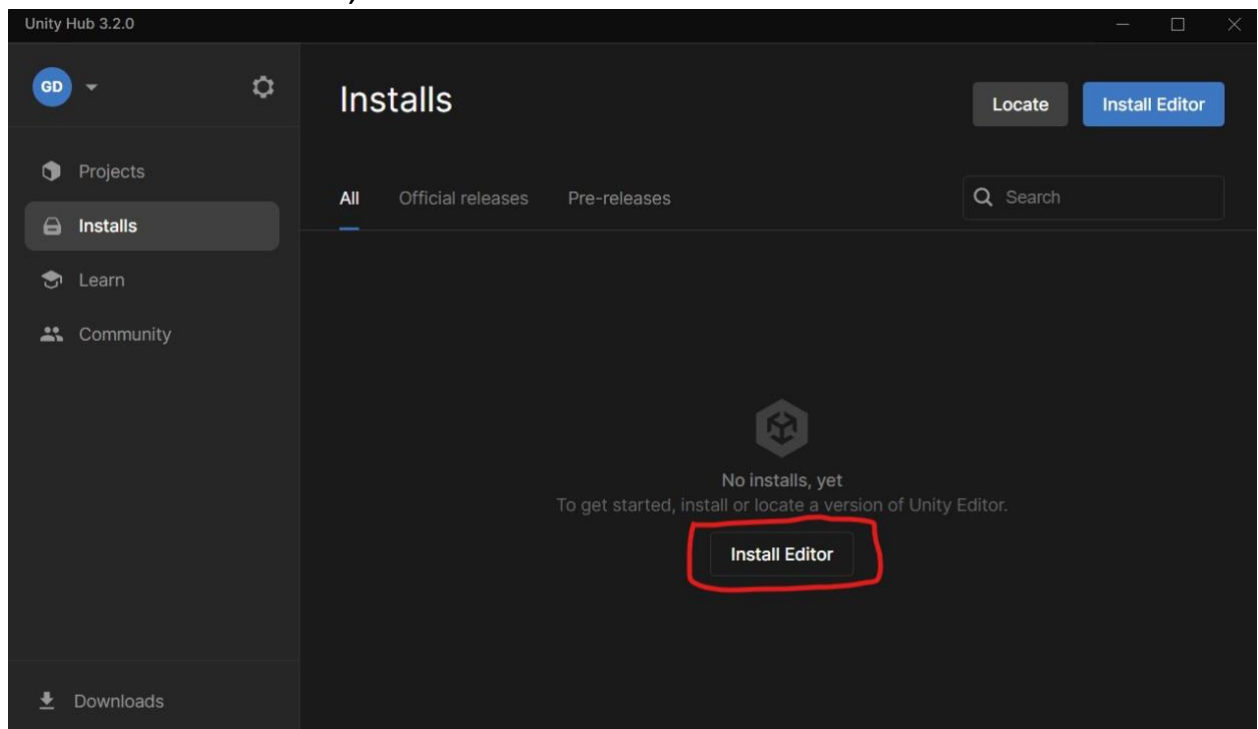

8. If prompted to install Editor, skip for now

## 9. Get Personal Edition License

## 10. Go to Installs, Click Install Editor

## 11. Choose 2021.3.16f1, and choose Intel or Silicon depending on your machine

Official releases

Pre-releases

Archive
